

SKILL SETS

- Product Design /
- Component sourcing and manufacturing
- STM32 / ATMEGA development platforms
- Linux / Embedded Linux
- Fast Prototyping /
- Circuit assembly (SMT)
- Hardware Debugging
- C/C++, Java, Python, SQL, Javascript

AWARDS RECEIVED

- Ghana Government Scholarship to study in Russia, 2014 - 2019

FLUENT LANGUAGES

- English
- Russian
- Twi

EBENEZER ASABRE

ELECTRICAL AND ELECTRONICS ENGINEERING

PERSONAL PROFILE

I am a multidisciplinary innovator with passion for human-centered product design. My skills and interests are in Embedded Software, Product Design and Algorithms.

EDUCATIONAL HISTORY

KAZAN STATE POWER ENGINEERING UNIVERSITY, RUSSIA
Sep 2015 - Jul 2019

BEng Electrical and Electronics Engineering

Top 5% of Graduating Class

- Undergraduate Research Assistance (Supervised by Ast Prof Kaminskii Stanislav Stanislavovich).
- Class Representative
- Thesis involved building a controlled device for testing Printed Circuit Boards(PCB)
- Studied in Russian language

KUMASI ANGLICAN SENIOR HIGH SCHOOL, GHANA
GENERAL SCIENCE 2011 - 2013

WORK EXPERIENCE

Electronics enthusiast

2016 - present

- Designed Circuit board for drone , transmitter and receiver modules with ATMEGA 2560 platform.
- Product design with Autodesk Fusion 360.

Freelancer

April 2019 - present

- Developed android applications for clients
- Collaborated with other designers on software programs
- Translated requirements into polished, high-level designs
